

SNOW DUAL FILTER CARTRIDGE (VN)

REPLACEMENT CARTRIDGES /
ACCESSORIES

PRODUCT-NO.: 207831

Hygienic & easily replacement filter

The 4-in-1 filter cartridge to use for Snow RO drinking water filter.

Excellent filtration quality This filter medium is made from polypropylene fiber and coconut shells and delivers outstanding filtration performance. The dual sediment and activated carbon block reduces sediments, herbicides, pesticides and turbidity, adsorbs chlorine, VOCs and THMs, and is also able to remove heavy metals such as lead and mercury. "Twist & done" function for easy filter replacement, no tools required.

The main features

Durable PP surface with 5 micron pore size for efficient pre-filter removal functions

Large carbon surface area for efficient particle removal

High quality carbon material for better taste and filtration performance

Strict quality control in both temperature and material ensures optimum performance of the carbon block

Hygienic encapsulated cartridge

"Twist" system for easy filter replacement

Type	SNOW DUAL FILTER CARTRIDGE (VN)
Part no.	207831

Technical data

Filtration stages	4 Stage
Filter stage 1	Pleated sediment - 5 #m
Filter stage 2	Carbon fibre
Filter stage 3	Pleated sediment - 5 #m

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in.

The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
